

Project Design Phase Solution Architecture

Date	29 June 2026
Team ID	SWTID-2026-2260
Project Name	Smart Lender
Maximum Marks	4 Marks

Solution Architecture:

The solution architecture illustrates the overall structure and workflow of the Smart Lender system. It shows how applicant data is collected, processed, analyzed by the machine learning model, and used to generate real-time loan approval predictions. The architecture ensures efficient, secure, and scalable processing of loan applications through a Flask web application deployed on IBM Cloud.
