Brainstorm & Idea Prioritization Template:

Our team conducted a structured brainstorming session to identify a real-world problem that could be effectively solved using Artificial Intelligence and Machine Learning. Multiple ideas were discussed, analyzed, and compared based on their feasibility, business value, technical complexity, and societal impact. After evaluating different project ideas, we selected **Smart Lender – AI-Powered Loan Approval Prediction System** as the most suitable solution. The following steps illustrate our complete brainstorming, idea generation, grouping, and prioritization process.

Step-1: Team Gathering, Collaboration & Problem Selection

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.
